**asunto:** "MULETRAX" PAY WELDER

To whom it may concern,

We have bought Laurini "Muletrax" Pay Welder tractors for our project in Spain and used them on several projects in remote areas of the world. As a Pay Welder it has been very helpful in many challenging operations and on different soils. With its overall performance and characteristics, this equipment has always met our expectations.

Yours sincerely,

A handwritten signature in blue ink is written over a circular stamp. The stamp contains the "elecnor infraestructuras" logo. The signature appears to be "Jaime Ibáñez".

Fdo.: Jaime Ibáñez
